First Newsletter of the Year

January 2010

Dear Sarah,

This is the first of our quarterly newsletters that will be sent to you by Shipshape Cleaning, keeping you up to date with new services and news.

Last year was a very busy year with some great achievements and new services being offered to new and existing clients.

The Shipshape team are looking forward to an exciting new year working with you and look forward to working with new contacts.

Yours sincerely,

Sarah Elton
Business Development Manager

Shipshape Achieve SAFEcontractor Accreditation

The SAFEcontractor programme recognises very high standards of health & safety practice amongst UK contractors.

Shipshape decided to start working towards achieving this award this summer, due to our ongoing hard work at Shipshape with health & safety practices and procedures.

We use an external health & safety company to write any health & safety documentation we need, which is reviewed regularly and specific to our contracts. We also commit to full induction training for all our employees and use

contracts. We also commit to full induction training for all our employees and we review staff training on a regular basis.

We are very pleased to be awarded this accreditation.

Shipshape Now Offer Fixed Wiring & PAT Testing

PAT Testing has to be done at least annually to comply with the Electricity at Work Regulations 1989. This is to protect employees, pupils and the business. Failure to test appliances can result in heavy fines, increased insurance premiums and even business closure.

Fixed Wiring Testing this has to be conducted every 3 years in industrial premises and every 5 years in offices. Again, to comply with the Electricity at Work Regulations 1989. We will ensure that all the fixed wiring in an electrical installation is safe to use. All installations are examined for compliance with the latest British Safety Standards to insure you are and can demonstrate compliance with the Electricity at Work Regulations.

With Shipshape, you can be certain to get an unbiased professional report providing peace of mind at an affordable rate.

We look forward to working with you this year and will keep you informed over the year of more ways in which we can help.
